## **HYPO-BANK BURGENLAND AG**

Hypothekenpfandbriefe (AT) -Residential & Commercial Mortgage Covered Bonds Performance Report - 2024Q3

#### **Summary**

The AAA rating with a Stable Outlook assigned to the covered bonds (Hypothekenpfandbriefe (AT)) issued by HYPO-BANK BURGENLAND AG are based on the bank's issuer rating (A- / Stable), enhanced by six notches of cover pool-support based uplift.

Governance support factors, in total, provide an rating uplift of up to five notches and, effectively, a floor against a deterioration in cover pool credit quality. This reflects our assessment of the strong governance support provided by the legal covered bond and resolution framework in Austria.

We have classified the interplay between complexity and transparency with a cover pool complexity (CPC) category of 'Low', allowing for a three-notch uplift on top of governance support factors, which translates into a maximum cover pool uplift of eight notches. Considering the regularly provided level of overcollaterialisation, the cover pool could provide a two-notch buffer against an issuer rating downgrade.

The last credit rating action and its supporting rating rationale can be found on scoperatings.com.
